

116TH CONGRESS
1ST SESSION

S. 2240

To promote digital citizenship and media literacy.

IN THE SENATE OF THE UNITED STATES

JULY 23, 2019

Ms. KLOBUCHAR (for herself, Mr. BENNET, Ms. SMITH, and Mr. PETERS) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To promote digital citizenship and media literacy.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the “Digital Citizenship and
5 Media Literacy Act”.

6 SEC. 2. FINDINGS.

7 Congress finds the following:

8 (1) People in the United States rely on infor-
9 mation from mass media, social media, and digital
10 media to make decisions about all aspects of social,
11 economic, and political life, including products and

1 services consumption, employment, career and pro-
2 fessional development, family and leisure choices,
3 health and wellness, and democratic engagement.
4 Ensuring that people in the United States possess
5 the skills to make these informed decisions based on
6 media begins early in life.

7 (2) Adversaries from Russia, China, and Iran
8 are using information warfare to influence democ-
9 racies across the world, and terrorist organizations
10 often use digital communications to recruit mem-
11 bers. The United States can fight these influences by
12 ensuring that citizens of the United States possess
13 the necessary skills to discern disinformation and
14 misinformation and think critically about their dig-
15 ital activities.

16 (3) Influence campaigns by foreign and domes-
17 tic groups reached tens of millions of voters during
18 the 2016 and 2018 elections with racially and divi-
19 sively targeted messages. The preservation of elec-
20 tions free of foreign influence is of utmost impor-
21 tance, and therefore Congress must take steps to
22 counter influence campaigns with media literacy.

23 (4) Media literacy education is critical to allow
24 young people to make informed decisions about
25 products and services, education, health and

1 wellness, and democratic decisions associated with
2 public policy. Media literacy education must be in-
3 clusive and accessible for all students, including stu-
4 dents with disabilities. Media literacy empowers
5 young people and gives them the agency to make in-
6 formed decisions about their future, advertisements,
7 the use of controlled substances, nutrition, and phys-
8 ical health. Equipping students with the skills to
9 make informed decisions in these areas contributes
10 to the betterment of mental health and public
11 health.

12 (5) A successful and inclusive media literacy
13 program must be directed at students beginning in
14 kindergarten and should continue throughout the
15 completion of postsecondary education. Learning to
16 critically analyze and create media is a lifelong proc-
17 ess that can be developed by integrating media lit-
18 eracy competencies into academic curriculum across
19 content areas and disciplines.

20 (6) Media literacy also allows young people to
21 develop the critical thinking skills that will help
22 them become informed voters. The right to vote is
23 a fundamental right afforded to United States citi-
24 zens by the Constitution. The unimpeded free exer-
25 cise of this right is essential to the functioning of

1 our democracy. The process to protect our democ-
2 racy begins with educating young people in the
3 United States to ensure that the young people pos-
4 sess the skills to engage in civic activities, engage
5 with communities, and eventually become informed
6 voters.
